Caring at its best

UHL GP NEWS

Termination of Pregnancy (TOP) and Contraception Services

What is the change?

There have been several developments with our Termination of Pregnancy and Contraception Services which enable us to offer a more effective service

When is this changing?

These services are available currently

What are the changes and benefits?

- TOP referral is now available on PRISM
- TOP Service has been relocated with additional facilities next to GAU at LRI and is easily accessible on public transport for patients
- Face-to-face Counselling pre and post treatment
- First Outpatient Appointment with 4-7 days - If safe first part of MTOP could be commenced same day or pre-assessment arranged for Surgical TOP
- Contraception advice and provision – including Implant, IUS, IUD, LARC
- Clinic Coordinators will arrange and confirm appointments with patients
- Specialist Nurse Follow-up following any procedure
- Surgical TOP up to 13 weeks and Medical TOP up to 16 weeks

Who to contact for more information?
